

Severe Weather Policy

Policy statement

Should certain weather conditions become apparent the following policy and procedures will be implemented. It is important to note that all staff due to attend work on these days are checked by the Manager that they are able to attend to ensure that the pre-school can open with full ratio implemented.

Procedures:

Snow/Ice – If pathways are rendered unsafe or icy then the alleyway to Pre-school will be closed. Entrance to preschool will either via the main entrance into Red building or along the narrow pathway and through the wooden gate. The severity of the weather will denote the entranceways on the day. A member of staff will be available to direct parents to the relevant entrance. A face book entry will be made advising parents of the gate closure, and an email will be sent to all parents on the morning of gate closure advising them of this.

If the heavy snow remains throughout the day collection may also be via the main entrance of red building or the school may close early. (see school closure)

Hurricane/High Winds – If the school is open (see school closure) then staff must be aware of any objects that may be lifted and carried through the air and that may become a dangerous projectile, where possible all items should be put away or weighted down to prevent injury. The manager must decide if the garden area is safe to use.

Heavy Rain/Flood - If the school is open (see school closure) then staff must be aware of large amounts of water and ensure that the area is safe for children. Should water levels rise and cover the path the Manager must contact the Site Manager Tyler Stamp immediately.

School Closure – Should inclement weather mean that the school is to be closed then the Site Manager will contact the Director or Manager to advise them of the closure. The Director or Manager shall contact parents due in on that day via email to advise of closure. School closures can also be found on local radio station web sites. If the school deems it necessary to close early

the parents/carers of the children in preschool will be contacted and asked to collect their children as soon as possible. If a carer unknown to preschool staff will be collecting, then the password system will come into effect.

Sessions

It may be necessary for the health and safety of the children and staff to close the preschool due to the weather. If this is the case, where possible the preschool will try to make up any non-funded sessions that have been missed, however this is not always possible due to capacity and ratio and will be accommodated only where possible and when it is fair to all.

Legal framework
